## CONFERENCE DESCRIPTION

Our **21<sup>st</sup> Annual Conference on Emergencies & Challenges in Primary Care** has been designed to provide physicians, nurse practitioners, PAs, nurses, and other health care professionals involved in primary care with evidence-based information on commonly encountered office dilemmas, and offers current approaches to clinical management. The goal of this conference is to increase knowledge and enhance the competence of attendees. Emphasis will be placed on practical application of the evidence-based topics presented.

Topics for this year's conference have been selected based on the educational needs determined from the identified professional practice gaps. The gaps were derived from a variety of sources including evaluations and outcomes data from past participants; clinical expert input; Symposia Medicus' online survey; and other medical and nursing data.

Conference format will include didactic lectures, case studies, and question and answer sessions.

An outstanding faculty has been assembled for this conference. Each member was selected based on their individual area of expertise and ability to communicate current, evidence-based, and practical information to participants.

You are sure to enjoy our **21<sup>st</sup> Annual Conference on Emergencies & Challenges in Primary Care** while sharing ideas and experiences with colleagues from across the country, amidst the excitement of New York City during the holiday season.

## CONFERENCE OBJECTIVES

As a result of participating in this conference, you should have increased knowledge and enhanced competence to...

- Recognize fibromyalgia, in its many manifestations, mimicking systemic inflammatory connective tissue disease
- Develop a structured approach to modifying the standard acetylcysteine regimen in patients with acetaminophen overdose
- Initiate the evaluation of a potentially dangerous skin disease
- Distinguish seizures from other paroxysmal events
- Provide guidelines for exercise implementation
- Recognize benefits and extended opportunities for the use of metformin
- Manage the cyanotic infant
- Identify newer medications for type 2 diabetes

## ATTENDEE REQUIREMENTS

At the conclusion of attending this conference, participants are entitled to a certificate of credit which will be available online. Successful completion of this activity is determined by attending the live activity, review of the educational session materials, and submission of the pre/post case study survey, evaluations, and attendance verification form. Each participant should only claim credit commensurate with the extent of their participation in the activity.

## ACCREDITATION

This educational activity was planned and produced in accordance with the **ACCME** and **ANCC** Essentials and Standards relating to continuing medical and nursing education.
