CONFERENCE DESCRIPTION

Our **29th Annual Fall Conference on Hot Topics in Primary Care** has been designed to provide physicians, nurse practitioners, PAs and nurses with up-to-date and evidence-based clinical data in Primary Care. The goal of this conference is to increase knowledge and enhance the competence of attendees. Emphasis will be placed on practical application of the evidence-based topics presented.

Topics for this year's conference have been selected based on the educational needs determined from the identified professional practice gaps. The gaps were derived from a variety of sources including evaluations and outcomes data from past participants; clinical expert input; Symposia Medicus' online survey; and other medical and nursing data.

Conference format will include didactic lectures, smaller group breakout and interactive sessions, case studies, and question and answer sessions.

An outstanding faculty has been assembled for this conference. Each member was selected based on their individual area of expertise and ability to communicate current, evidence-based, and practical information to participants.

You are sure to enjoy our **29th Annual Fall Conference on Hot Topics in Primary Care** while sharing ideas and experiences with colleagues from across the country in the beautiful setting of Grand Cayman.
