## CONFERENCE DESCRIPTION

Our **34<sup>th</sup> Annual Fall Conference on High Risk Obstetrics** is designed for physicians, certified nurse midwives, nurse practitioners, PAs, nurses, and other healthcare professionals who face challenges in the care of the high risk pregnant patient. The goal of this conference is to increase knowledge and enhance the competence of attendees. Emphasis will be placed on practical application of the evidence-based topics presented.

Topics for this year's conference have been selected based on the educational needs determined from the identified professional practice gaps. The gaps were derived from a variety of sources including evaluations and outcomes data from past participants; clinical expert input; Symposia Medicus' online survey; and other medical and nursing data.

Conference format will include didactic lectures, case studies, and question and answer sessions.

An outstanding faculty has been assembled for this conference. Each member was selected based on their individual area of expertise and ability to communicate current, evidence-based, and practical information to participants.

You are sure to enjoy our **34<sup>th</sup> Annual Fall Conference on High Risk Obstetrics** while sharing ideas and experiences with colleagues from across the country in the exciting setting of New Orleans.
